**SAMPLE FORM – NOT VALID FOR SUBMISSION TO BUILDING DEPARTMENTS****DOCUMENTATION AUTHOR'S DECLARATION STATEMENT**

1. I certify that this Certificate of Verification documentation is accurate and complete.

Documentation Author Name:	Documentation Author Signature:
Company:	Date Signed:
Address:	CEA/ <u>HERSECC</u> Certification Information (if applicable):
City/State/Zip:	Phone:

RESPONSIBLE PERSON'S DECLARATION STATEMENT

I certify the following under penalty of perjury, under the laws of the State of California:

1. The information provided on this Certificate of Verification is true and correct.
2. I am the certified HERSECC Rater who performed the verification identified and reported on this Certificate of Verification (responsible rater).
3. I field inspected the existing building features, materials, components, manufactured devices, or system performance characteristics proposed for compliance credit for energy efficiency improvement identified on this Certificate of Verification and determined these existing building features, materials, components, manufactured devices, or system performance characteristics qualify for the proposed existing conditions compliance credit unless reported as not qualified in verification status and correction notes fields on this Certificate of Verification.
4. I understand that a registered copy of this Certificate of Verification shall be posted, or made available with the building permit(s) issued for the building, and made available to the enforcement agency for all applicable inspections, and I will take the necessary steps to ensure this requirement is accomplished.
5. I understand that a registered copy of this Certificate of Verification is required to be included with the documentation the builder provides to the building owner at occupancy, and I will take the necessary steps to ensure this requirement is accomplished.

A. General Information

Rater should verify this information to the best of their ability. Any questions or deviations should be indicated in the Verification Status row.

B1. Building Envelope Leakage

Existing (pre-retrofit) building envelope leakage should be verified in accordance with the procedures outlined in the Reference Appendices, Residential Appendix, RA3.8.

B. Opaque Surfaces

Existing roof type, R-value above deck, and R-value below deck should all be verified.

C. Roofs

Existing dwelling unit, frame type, area, U-factor, and R-values should all be verified.

D. Windows

Existing dwelling unit, surface type, frame type, area, u-factor, and R-values should all be verified.

E. Doors

Existing wall type, frame type, area, U-factor, and R-values should all be verified.

F. Overhangs & Fins

All columns of this section should be verified.

G. Water Heaters

All columns of this section should be verified.

H. Water Heating

All columns of this section should be verified.

I. HVAC – Heating Systems

All columns of this section should be verified.

J. HVAC – Cooling Systems

All columns of this section should be verified.

K. HVAC Distribution

All columns of this section should be verified

L. Indoor Air Quality (IAQ) Fans

All columns of this section should be verified.

M. Determination of ~~HER~~SECC Verification Compliance

This field is filled out automatically based on all verification protocol requirements in this document showing compliance.

M. Determination of ~~HERSECC~~ Verification Compliance

All applicable sections of this document shall indicate compliance with the specified verification protocol requirements in order for this Certificate of Verification as a whole to be determined to be in compliance.

01	<<If Verification Status in sections B1, B, C, D, E, F, G, H, I, J, K, and L equal Pass then result is a pass. Else result is fail. For pass result, display text: “Complies: All specified verification protocol requirements on this document are met”. For fail results, display text: “Does Not Comply: One or more specified verification protocol requirements on this document are not met”.
