

Information on Draft Compliance Documents

Please note that these are all *draft* documents and have not been approved by the California Energy Commission. The documents are *not* to be used for compliance but are intended for reference to indicate what the final approved documents are likely to look like. Additionally, we are continuing to make adjustments to these docs for ADA accessibility so the table layouts will change as that work is completed.

Additional notes on compliance documents:

- The LMCC and NRCC compliance docs have updated headers and footers, as well as an updated general note and table at the top of the form. This is the text and table at the top of each form:

This document is used to demonstrate compliance with mandatory commissioning requirements in §120.8 for nonresidential buildings and hotel/motel or mixed-use buildings with nonresidential spaces. This document does not demonstrate compliance with commissioning requirements within Title 24, Part 11, which need to be documented separately if they apply.

Project Name:	Enforcement Agency:
Dwelling Address:	Permit Number:
City and Zip Code:	Date Permit Issued:
