RESPONSIBLE PERSON'S DECLARATION STATEMENT

I certify the following under penalty of perjury, under the laws of the State of California:

1. The information provided on this Certificate of Installation is true and correct.
2. I am either: a) a responsible person eligible under Division 3 of the Business and Professions Code in the applicable classification to accept responsibility for the system design, construction, or installation of features, materials, components, or manufactured devices for the scope of work identified on this Certificate of Installation, and attest to the declarations in this statement, or b) I am an authorized representative of the responsible person and attest to the declarations in this statement on the responsible person's behalf.
3. The constructed or installed features, materials, components or manufactured devices (the installation) identified on this Certificate of Installation conforms to all applicable codes and regulations and the installation conforms to the requirements given on the Certificate of Compliance, plans, and specifications approved by the enforcement agency.
4. I understand that a registered copy of this Certificate of Installation shall be posted or made available with the building permit(s) issued for the building, and made available to the enforcement agency for all applicable inspections, and I will take the necessary steps to ensure this requirement is accomplished.
5. I understand that a registered copy of this Certificate of Installation is required to be included with the documentation the builder provides to the building owner at occupancy, and I will take the necessary steps to ensure this requirement is accomplished.

Battery Energy Storage System (BESS)s	(Page 3 of 1)

CF2R-PVB-02-E User Instructions

A. General Information

This table reports the general information that were specified on the registered CF1R compliance document for this project. For information only and requires no user input.

B. Design Battery ~~Energy~~ Storage System (~~BESS~~)s Information

This table reports the ~~battery storage system~~BESS features that were specified on the registered CF1R compliance document for this project. For information only and requires no user input.

C. Installed Battery ~~Energy~~ Storage System (~~BESS~~)s Information

1. Manufacturer – Enter the name of the manufacturer
2. Model # - Enter the model number of the ~~battery storage system~~BESS
3. Battery Capacity – Enter the rated battery capacity in kWh
4. Control – Enter the control strategy of the ~~battery storage system~~BESS. The options are basic, TOU, and Advanced DR
5. Charging Efficiency – Enter the rated charging efficiency in %
6. Discharging Efficiency – Enter the rated discharging efficiency in %
- 6a Round Trip Efficiency (%) - Enter the rated trip efficiency (%)
7. ~~Battery Storage System~~BESS Certified and listed be CEC – Check whether the ~~battery storage system~~BESS is certified and listed in the CEC website.
